

„Your partners – excellent solutions! „

3-phase Measuring and testing equipment for Energy consumption meters

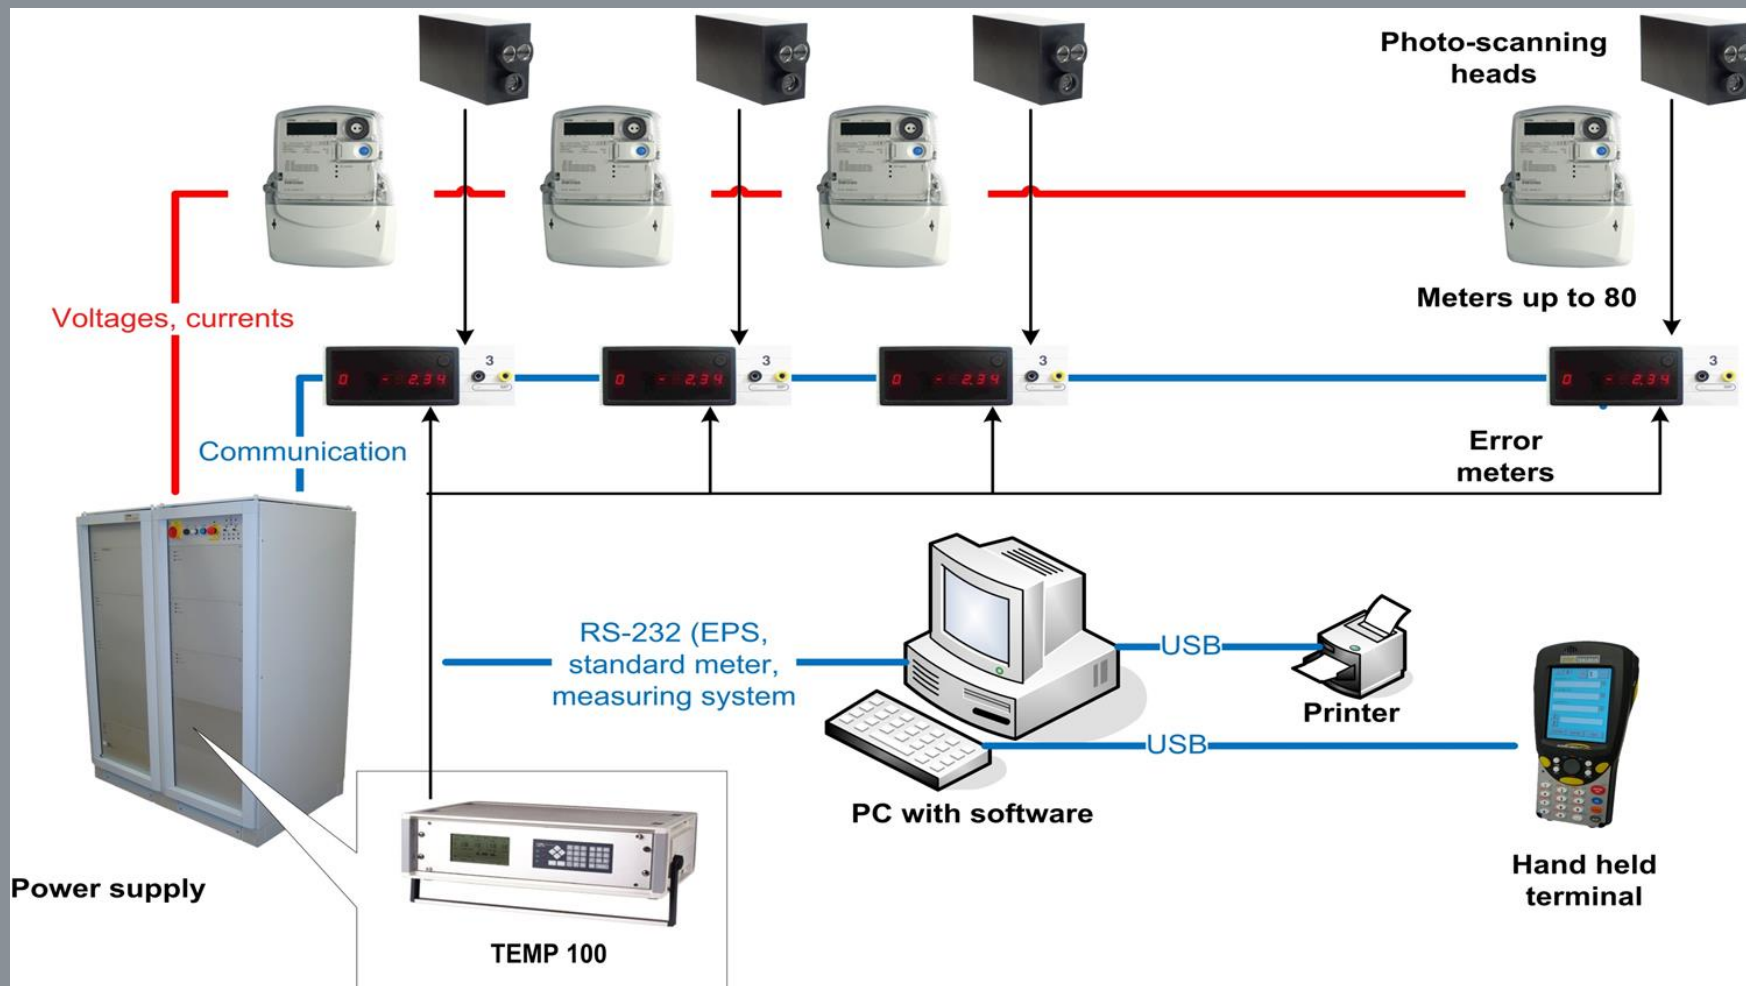

Finished project → „Successful acceptance!„

Kranj, June 2016

Movable rack (for 40 meters) + Power Source EPS 40-3H + Software solution

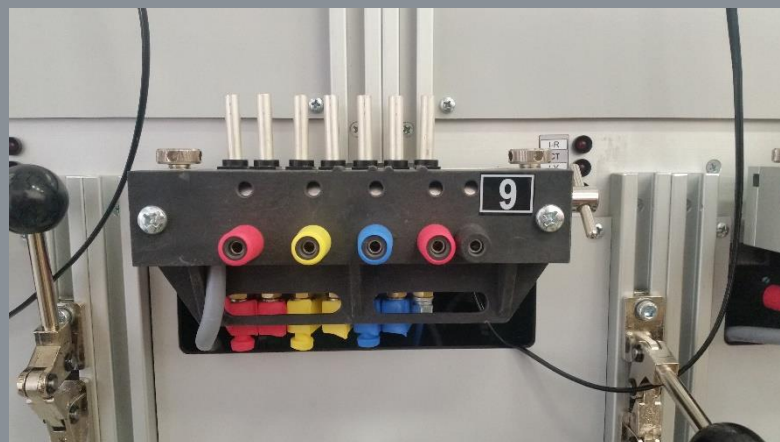

Working procedure

Details (Current transformers)

Details (Error meters, Photo-scanning heads, ...)

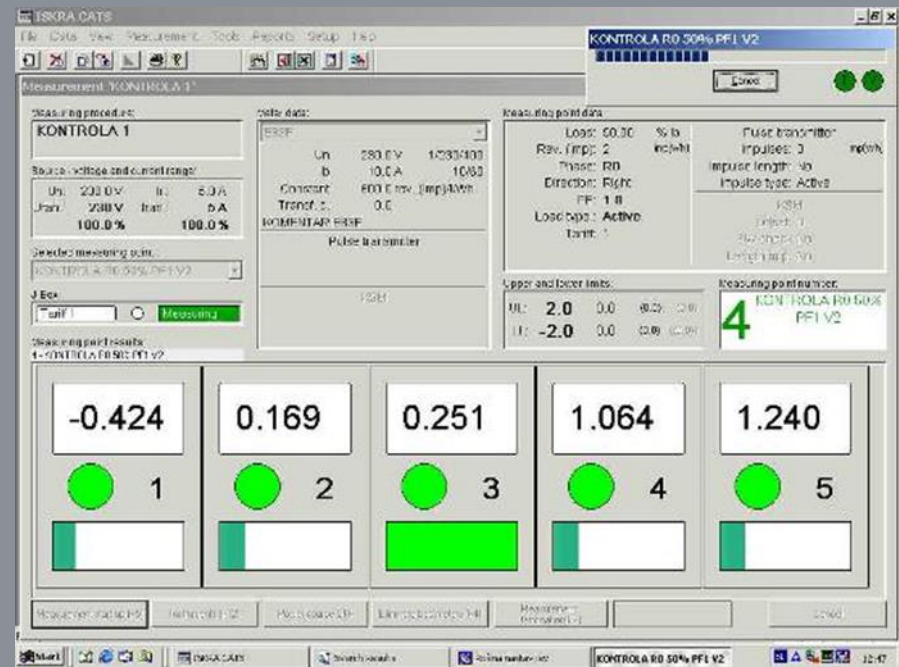

Power Source EPS 40-3H

- Voltage source 30-320 V L-N
- Current source 200 A
- Phase angle 0° up to 359,99°
- Harmonic generation
- Controlled over RS-232 or keyboard/display

Software

- Control of source
- Control of Standard meter
- Display of current measuring values
- Prepare of test procedures
- Storing procedures and results in database
- Users authorisation
